

INTEXT STUDIO

Complete Interiors & Exteriors Solution

WELCOME TO INTEXT STUDIO

Intext Studio is considered as one of the most renowned firms

Intext Studio, formerly known as **Unitech Interiors**, was established in the year **1990** by a group of **Engineering professionals** with an objective of providing high quality Interiors and Exteriors products.

All the products are fabricated in-house using high quality fabric and components. Our products are used in residential, commercial and corporate sectors around the country. Because of our commitment to service and top of the line products, we are widely recommended by Architects and Interior Designers. In our constant endeavour to update the technology, Intext Studio is using globally accepted materials of Somfy SA of France for automation and controls of awnings, blinds, rolling shutters and curtain tracks and Ferrari of France for awnings and roller blind fabric.

Our corporate office and fabrication facility is based in **New Delhi** with business associates in major cities of India.

Our Products

We build our projects with your dreams and ideas

Aluminium Doors/Windows
& Partition

Spider Glazing

Aluminium Composite
Panel (ACP's)

Facade Glass

Awnings

(Basket Awning, Terrace Awning, &
Drop/Vertical Awning)

Aluminium Doors/Windows & Partition

Intext Studio provides See-through Casement Doors which are open able inwards & outwards. Such Doors are best suited for Offices, Malls & Showrooms.

Facade Glass

Facade Glass is glass that is especially designed for facades of a building. Gone are the days when brick and mortar exemplified a building facade

Spider Glazing

Intext Studio offers a modern solution for external glass facades, i.e. Spider Glazing. In such a design, the glass is fixed without the support system of traditional Aluminium Structure.

Awnings (Basket Awning, Terrace Awning, & Drop/Vertical Awning)

An Awning is a secondary covering attached to the exterior wall of a building. It is typically made up of canvas woven of acrylic or vinyl laminated fabric stretched tightly over a light structure of Aluminium.

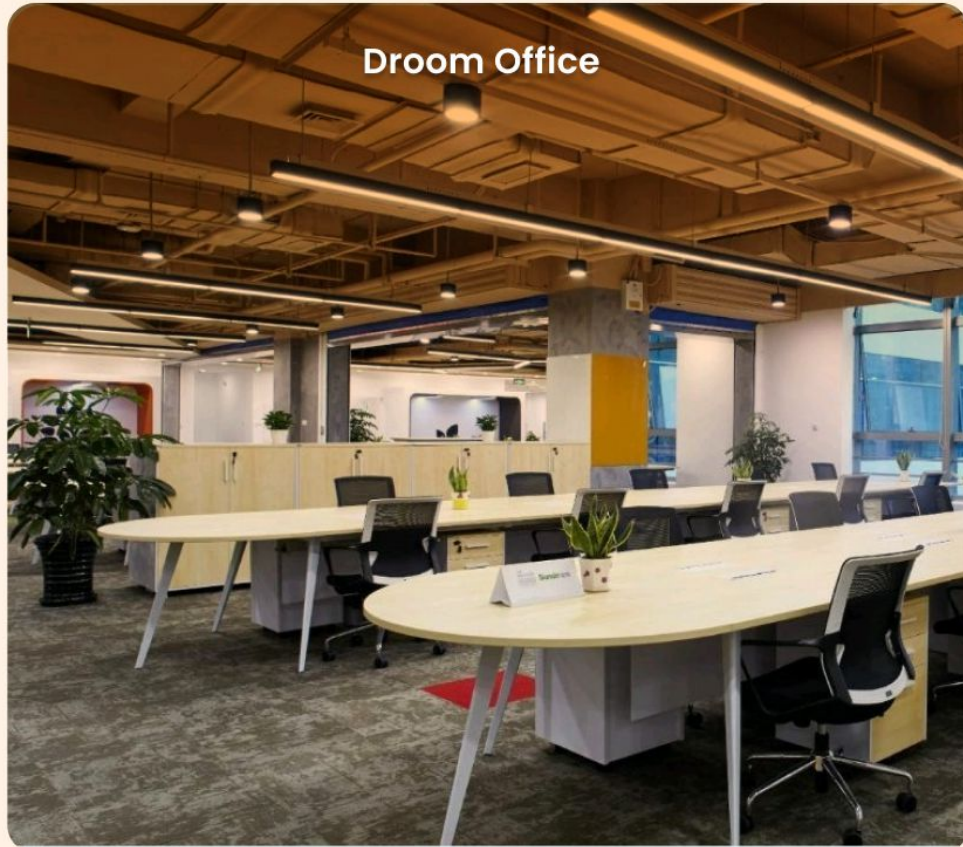

Aluminium Composite Panel(ACP`s)

Aluminium Composite Panel (ACP) also Aluminium Composite Material, (ACM) is a type of flat panel that consists of two thin aluminium sheets bonded to a non-aluminium core
